CONTENTS

NUMBER 1

Z. S. AL-Hakkak, Alya M. B. Murad and Afaf F. Hussain	1	Black-eye: a new sex-linked recessive mutation in *Ephestia cautella* (Walker) (Lepidoptera: Pyralidae)
G. G. White	5	Temperature changes in bulk stored wheat in sub-tropical Australia
G. G. White	13	Field estimates of population growth rates of *Tribolium castaneum* (Herbst) and *Rhyzopertha dominica* (F.) (Coleoptera: Tenebrionidae and Bostrychidae) in bulk wheat
Bryan D. Turner and Hannah Maude-Roxby	23	Starvation survival of the stored product pest *Liposcelis bostrychophilus* Badonnel (Psocoptera, Liposcelidae)
N. J. Armes	29	The seasonal activity of *Anthrenus sarnicus* Mroczkowski (Coleoptera: Dermestidae) and some other beetle pests in the Museum environment
J. Lacey	39	The microbiology of cereal grains from areas of Iran with a high incidence of oesophageal cancer
L. A. Price and K. A. Mills	51	The toxicity of phosphine to the immature stages of resistant and susceptible strains of some common stored product beetles, and implications for their control

NUMBER 2

G. G. White and T. A. Lambkin	61	Damage to wheat grain by larvae of *Tribolium castaneum* (Herbst) (Coleoptera: Tenebrionidae)
J. F. Adetunji	67	A study of the resistance of some sorghum seed cultivars to *Sitophilus oryzae* (L.) (Coleoptera: Curculionidae)
A. W. O. Lima and J. Cal-Vidal	73	Estimation of shelf life of film-packaged freeze-dried banana
Mun Il Ryoo and Ki-Jong Cho	79	A model for the temperature-dependent developmental rate of *Sitophilus oryzae* L. (Coleoptera: Curculionidae) on rice
Pushpinder J. Rup	83	Antenna and antennal sensilla dimorphism in *Callosobruchus maculatus* (F.) (Coleoptera: Bruchidae)
K. S. Boon and S. H. Ho	87	Factors influencing the post-fumigation reinfestation of *Tribolium castaneum* (Herbst) (Coleoptera: Tenebrionidae) in a rice warehouse
W. Ross Halliday	91	Tissue specific esterase and malathion carboxylesterase activity in larvae of malathion-resistant *Plodia interpunctella* (Hübner) (Lepidoptera: Pyralidae)
R. M. Abdelsamad, E. A. Elhag and Y. M. Eltayeb	101	Studies on the phenology of *Tribolium castaneum* (Herbst) (Coleoptera: Tenebrionidae) in the Sudan Gezira

J. M. Desmarchelier — 107 The relationship between wet-bulb temperature and the intrinsic rate of increase of eight species of stored-product Coleoptera

Christopher H. Bell, Barbara D. Hole and Amanda L. Clifton — 115 The toxicity of mixtures of methyl bromide and methyl chloroform to stored product insects

NUMBER 3

M. Shawir, G. N. J. le Patourel and F. I. Moustafa — 123 Amorphous silica as an additive to dust formulations of insecticides for stored grain pest control

Martin Hetz and Clarence D. Johnson — 131 Hymenopterous parasites of some bruchid beetles of North and Central America

Aaron Brownlee and Alexander Sokoloff — 145 Transmission of *Tribolium castaneum* (Herbst) mutants to *T. castaneum–T. freemani* Hinton hybrids (Coleoptera: Tenebrionidae)

Sylvia Henderson — 151 The effect of wetting or drying wheat and barley on the calibration of two moisture meters

Peter F. Credland and Andrew W. Wright — 157 The effect of artificial substrates and host extracts on oviposition by *Callosobruchus maculatus* (F.) (Coleoptera: Bruchidae)

J. P. Edwards, J. E. Short and D. G. Rowlands — 165 Metabolism and insect juvenile hormone activity of methoprene and three major metabolites in *Tribolium castaneum* (Herbst) pupae

Sarah Phillips, Sintha Widjaja, Ann Wallbridge and R. Cooke — 173 Rice yellowing during post-harvest drying by aeration and during storage

H. J. Banks and J. B. McCabe — 183 Uptake of carbon dioxide by concrete and implications of this process for grain storage

NUMBER 4

J. E. Baker — 193 Development of four strains of *Sitophilus oryzae* (L.) (Coleoptera: Curculionidae) on barley, corn (maize), rice, and wheat

H. Bacha, R. Hadidane, E. E. Creppy, C. Regnault, F. Ellouze and G. Dirheimer — 199 Monitoring and identification of fungal toxins in food products, animal feed and cereals in Tunisia

G. N. J. Le Patourel and E. M. Tayeb — 207 Additivity of action of three organophosphorus insecticides to some pests of stored grain, and the use of linear programming to identify minimum cost mixtures

A. R. Shakoori, M. Fayyaz and M. A. Saleem — 215 Biochemical changes induced by fenpropathrin in the sixth instar larvae of *Tribolium castaneum* (Herbst) (Coleoptera: Tenebrionidae)

T. A. Jacob — 221 The effect of temperature and humidity on the developmental period and mortality of *Typhaea stercorea* (L.) (Coleoptera: Mycetophagidae)

E. J. Bond and D. M. Miller	225	A new technique for measuring the combustibility of gases at reduced pressures and its application to the fumigant phosphine
A. J. Howlader and A. S. M. A. Matin	229	Observations on the pre-harvest infestation of paddy by stored grain pests in Bangladesh
D. A. Fleming	233	The influence of wheat kernel damage upon the development and productivity of *Oryzaephilus surinamensis* (L.) (Coleoptera: Silvanidae)
J. Allotey	237	A study of the insect pests in stored palm produce in Port Harcourt, Nigeria
B. Leliveldt, G. A. Laborius and F. A. Schulz	241	The distribution of *Mattesia* sp. (Neogregarinida: Ophryocystidae), a pathogen of *Prostephanus truncatus* (Horn) (Coleoptera: Bostrichidae) in Togo
